**THE SEVENTH MONGER.**  
 News comes that the seventh monger has been patented with some of the most important of the world's secrets. The inventor, a man of genius, has discovered a way to make a man's mind as strong as his body. This discovery is a great boon to the world, and it is hoped that it will be used for the benefit of all mankind.

## LOCKING THE STABLE DOOR.

Back in the time when we had so much trouble with foreign players in American soil an institution was begun to have laws framed that would enable the government to proceed criminally against such offenders. The institution had no laws to cover the commission of immoral acts or in purchasing anybody for gambling, lottery or other activities under the law. There were no laws to cover the commission of immoral acts or in purchasing anybody for gambling, lottery or other activities under the law. There were no laws to cover the commission of immoral acts or in purchasing anybody for gambling, lottery or other activities under the law.

and to limit the activities of foreign agents in whatever interests they may be working.

## A SOD TO THE MOGERS.

And then the whole matter is to be decided by the action of the people, and it is hoped that it will be used for the benefit of all mankind.

## THE GREAT DISAPPOINTMENT.

Our Democratic friends have never been able to get in a good humor over the outcome of a Republican convention going to the supreme bench to find a presidential candidate, nor over the great disappointment of Roosevelt's refusal to lead a third party and split the vote so that Wilson's election would be assured. Their objections to both these events are, of course, not based on any moral grounds, but on displeasure because fate refused to choose the track for the Democratic ticket. And now, as signs multiply looking toward the triumphant election of Hughes, they still insist that something wrong was done in taking a man off the bench to put him in the presidential chair. In contrast the other day this matter came up, and Senator Townsend of Michigan said in reply: "It is a compliment to Mr. Hughes that no one has raised any other issue against him. He never bothered to close on to public sentiment, but has adhered to his duty as he saw it. The public career of Mr. Hughes stands alone in American history. He was chosen to lead his party against the opposition of the so-called politicians and his first act after receiving the nomination was to resign from the supreme court bench. He accepted the nomination because he believed the people should have him and because he believed a national emergency exists. Such an emergency does exist and has existed for two years and a half. Our president has been entirely vacillating in his conduct. No one ever knows how he is going to meet a problem. We are at peace in spite of the president, and not because of him." And he might have added that the people did not call Mr. Hughes and they had the purpose in calling him of following that call by electing him to the position now held by Woodrow Wilson.

## City News in Brief

**SUIT FOR DIVORCE** WAS filed by Mrs. Frank Traxler from his wife, Bertha Traxler, yesterday in the superior court. Traxler alleges his wife sought the company of other men.

## ABE MARTIN

**ABE MARTIN**, traveling freight agent of the Rock Island with headquarters in Oklahoma City, dropped into Tulsa yesterday.

## Don't You Remember?

Happenings That Interested the People of Tulsa Just Five Years Ago Today.

**T**HE county clerk board at its meeting yesterday authorized the second session of the Tulsa County Board of Health to be held on August 10, 1916, at 10 o'clock a. m. in the city hall.

The maximum temperature was 84 at 10 o'clock a. m. and 84 at 10 o'clock p. m. The minimum temperature was 64 at 10 o'clock a. m. and 64 at 10 o'clock p. m.

Warrants were issued by State Judge Marshall Hamilton charging O. M. Yancy and his son with armed robbery in connection with the burning of the Palace rooms two nights previous.

They were married in Hot Springs, Ark., March 14, 1915.

**L. E. ROBERTS** returned yesterday from a trip through the east.

**FRANK BROWN**, prominent oil man of Independence, Kan., is in Tulsa on business.

**MISS GAYLE PETTIS** stenographer in the office of the county attorney, is enjoying a two-week vacation.

**CHARLES EVANS**, new president of the Oklahoma county board of health, will arrive next week to take up his work here.

**MR. AND MRS. CHARLES** given left Thursday morning in company with Mrs. Westley Wilson for a five-day trip near Seneca, Mo.

**FUNERAL SERVICES** for the 12-day-old infant of Mr. and Mrs. L. E. Roberts, 2 North Denver avenue, who died Wednesday morning, were held at the home yesterday afternoon. Burial was in Oakwood cemetery.

**THE WESTERN UNION** telegraph company announced yesterday through its local manager, that the cable between Tulsa and Denver had been restored, but messages were being accepted subject to delay.

**MARRIAGE LICENSES** were issued yesterday to Marvin E. Graham, Sand Springs, and Mrs. Marie Derrough of Corsicana, Texas; Alfred J. Hale, Collinsville, and Mrs. Beatrice Collins of Collinsville; George Gregory of Tulsa, and Marie Stulor of Tulsa; O. D. Green, Checotah, and Myrtle G. Callaghan of Sapulpa.

**EDWIN C. HOENSTRA**, vice-president and chief general manager of the Hoefstra Manufacturing company, makers of insect destroyer and grease evaporator, leave tonight for New York and other eastern markets to purchase chemicals and other supplies for the coming year. They will be gone about two weeks.

**CHARLES JOHNSON**, prominent real estate dealer and representative of the Negro guardianship league, will speak at 8 o'clock, August 4, at the establishment of the Negro Rights league. Johnson has much to say about helping the freedom of the state to secure for themselves the rights enjoyed by other citizens and especially in the securing of the rights of negro guardians for the minors. Despite the fact that the negroes in several counties of the state have secured that negroes are not eligible to serve as guardians, he has shown himself capable of handling their affairs, looking forward for several wealthy estates.

**TRANSPORTATION TALK**  
 Unless a cool wave blows along this way, E. N. Riley, chief clerk of the Police, may be found some morning suffering from ice on the brain. For the past week Mr. Riley has been experiencing difficulty in getting ice from the local plant, with which the road has a contract, because the local plant is unable to supply the Tulsa demand. As a result many trains and cars which are scheduled to leave at this point are going through without the process. The situation became more acute when Sapulpa announced that it was in a similar predicament and the Tulsa station ran entirely out of the commodity. Mr. Riley said yesterday that he would rely on the local ice company to supply him, although he at first considered shipping from up the line.

**AGENTS** monthly reports point out the biggest month in the history of the local Prospector. A passenger train, last June, E. N. Riley, chief clerk of the Police, may be found some morning suffering from ice on the brain. For the past week Mr. Riley has been experiencing difficulty in getting ice from the local plant, with which the road has a contract, because the local plant is unable to supply the Tulsa demand. ## IAMS TENNIS CHAMP AFTER FAST FINALS

Defeats Pomeroy and Freeman in Y. M. C. A. Tournament Yesterday.

Heady, steady, consistent tennis played Iams, latest acquisition to Tulsa's gallery of racket stars, to win the open handicap tournament on the courts of the Y. M. C. A. Tennis club yesterday evening. During the course of the afternoon Iams defeated both Pomeroy and Freeman, easily taking the title.

All matches except the semi-finals between Pomeroy and Iams and the final between Iams and Freeman were completed up to yesterday. At a quick glance Pomeroy and Freeman were on the courts with no handicap. Pomeroy was on the defensive from the first and although he put up a hard fight, Iams won the first set by a count of 6-2. In the second set he had no chance, losing to Iams 6-2. With only a short rest Iams took the courts with Freeman who had risen to the final by the earlier route. Freeman was favored with a handicap of 15 on alternate games but it availed him little. The handicap was about all he had when the dust cleared. The scores were 6-1, 6-2. Iams won the doubles with Doty the day before.

## WILLIAMS' ENEMY WINS IN ELECTION

Man Who Took up Bites Fight is Elected to Place in Legislature.

**Special to The World.**  
 OKLAHOMA CITY, Aug. 4.—When C. W. Biles was removed from the presidency of the state normal school at Ada, he and his friends attributed it to the fact that Biles did not support Governor Williams in the primary when the latter was seeking nomination for governor. This feeling was so strong that Robert Williams, then county attorney, who was Biles' friend, made an open fight on the governor and stated that he would become a candidate for the legislature by a large majority. Nomination on the platform of having the state board of education made elective by the people and take the appointment out of the hands of the chief executive so they would not be obliged to bow to his will. In the primary of Tuesday Williams won out for the nomination by a large majority. Nomination on the Democratic ticket in Pontotoc county is considered equivalent to election, and Williams has announced that he will be a candidate for speaker of the house.

**ZEPELINS FAIL TO REACH LONDON**  
 Officials Claim Berlin's Statement to This Effect is Entirely Incorrect.

**LONDON, Aug. 4.**—(7:20 p. m.)—Investigations here fail to bear out the German claims that the last two Zeppelin raids reached London. Many people from all parts of London and the suburbs have reported they did not see or hear any Zeppelins or any guns. Whenever Zeppelins have reached London or the suburbs in the past, the news spread quickly and there was no difficulty in finding plenty of witnesses to testify to their presence.

An official from Berlin on August 1 said that German Zeppelins in their raid over England on the previous night had reached London. Berlin also claims officially that bombs were dropped on London during the raid on the night of August 2.

**TO ATTEND TO THE ORCHARDS**  
 Prof. C. E. Sanborn, State Entomologist, Will Give Time to Work.

**Special to The World.**  
 OKLAHOMA CITY, Aug. 4.—In order to give more care to the orchards of the state, the state board of agriculture, in session here, has decided to relieve Prof. C. E. Sanborn, state entomologist, of a portion of his classroom at the state A. & M. college and permit him to visit the orchardmen and farmers who have fruit trees. It is the intention to work up a greater interest in the growing of fruit trees in the state. At present the situation relative to orchards is anything but favorable. Farmers do not seem to give enough attention to their trees, and with the hot weather the orchards are suffering. It is believed that with a reasonable amount of attention fruit trees could be brought into a much better condition than they are at present. In some of the orchards different tree diseases have worked havoc among the trees. It is the intention that has helped to bring about this condition, and the state board of agriculture is desirous of encouraging the farmers to change this situation. It is said in some places fruit trees have practically been abandoned.

**COW ON TRACK; ONE IS DEAD.**  
 Week Near Wynne, Ark., Kills Engineer and Injures Fireman.

**MEMPHIS, Tenn., Aug. 4.**—An Iron Mountain freight train eastbound struck a cow on the track near Wynne, Ark., late today with the result that E. L. Green, a Memphis engineer, was killed, J. P. Bickford, Memphis fireman, severely injured, and the engine and 16 cars derailed. A wrecking crew was ordered to the scene and early tonight was bending every effort to lift the engine off Green's body.

**First Violence.**  
 ST. LOUIS, Aug. 4.—The first violence in the strike of employees of St. Louis (Mo.) packing houses occurred today when a crowd of strikers attempted to stop a meat laden truck. Strikers were hurled at the automobile and also at one in which special policemen were riding. The police fired in the air to frighten the rioters. A bullet struck and slightly wounded a striker who was in his own yard, taking no part in the demonstration.

**ESTIMATE VALUATION**  
 AT \$1,248,811,724

**OKLAHOMA CITY.**—The state board of equalization tax valuations in the counties of the state. The total valuation of assessable property is fixed at \$1,248,811,724. Last year it was \$1,137,164,328.

## Have you lost your Dog?

**Has the Canine gone astray?**  
**Advertise your Loss in the "Classified"—**  
**That'll get the "Mut" back right away!!**

Dogs and other domestic animals stray off, get lost, or are stolen, every day. Very few cases indeed, are there, that the wandering "animule" is not worth an effort to recover. May be some child is sorely grieved over the loss of a pet dog—may be "just a puppy," like the little "koodle" in this picture. A few lines at small cost in the "CLASSIFIED LOST AND FOUND" section, immediately starts a hunt for the lost animal, that usually results in locating it, and getting it back safe and sound. The Lost and Found columns of the Tulsa Daily World are prolific in successfully searching for, and locating lost valuables of every description.

## NEW YORK PLAGUE DEATH RATE GROWS

Has Reached Alarming Ratio of More than Twenty Per Cent in City.

**NEW YORK, Aug. 4.**—New forces were added to the campaign against the epidemic of infantile paralysis here when two committees composed of prominent pathologists and bacteriologists from all over the country were selected today to study the disease in all its ramifications. The naming of the committees followed a conference of the experts at the college of physicians and surgeons of Columbia university. The number of deaths and new cases reached a new high mark with the 24 hours ending at 10 o'clock today. New cases totaled 217 and the number of deaths was 43. Health Commissioner Haven Emerson announced tonight that the death rate of the present epidemic was now 20 per cent of the cases reported, while in 1907, it was only 5 per cent.

## ARTICLES OF WAR TIE UP ARMY BILL

If Agreement Is Not Reached Today Whole Section of Measure Loses.

**WASHINGTON, Aug. 4.**—Conference on the army appropriation bill were unable today to break their deadlock on the section of the measure revising the articles of war. They will meet again tomorrow and if no agreement can be reached the whole section will be eliminated to avoid holding up the bill indefinitely. Tentative agreement has been reached on the appropriations and some parts have been made in the \$24,000,000 total of the senate bill. There will not be announced until there is full agreement on the bill. Senator Chamberlain said tonight that the reductions were not radical and that the aggregate to be agreed upon would far exceed the \$182,000,000 proposed in the house bill.

## DROP COMES AFTER A SWELTERING DAY

Tulsans Have Pleasant Night With Good Breeze Blowing After Hot Sun.

**Sleep tight last night?**  
 Surely wasn't the fault of the weatherman. If one didn't let the mercury slump to a very reasonable temperature making it the most delightful weather that Tulsa has experienced for the past several weeks. The maximum temperature reported yesterday was 104.

Whether the city is destined to enjoy a few days of the cooler spell is entirely up to the weatherman. The promise for today is for clear skies but there is no mention of what the thermometers will do.

**The Bride's Appeal.**  
 "Hubby, I've often heard you speak about your salad days."  
 "Yes, my dear."  
 "Can't you help me make a salad for my reception? I must have one and I know nothing about the dreadful things."

## HOW CAN YOU BLAME THEM?

Democrats Will Hold Caucus to Howl Over Stinging Defeat at Polls.

**Special to The World.**  
 OKLAHOMA CITY, Aug. 4.—Chairman Alger Melton of the Democratic state committee, has issued a call for a meeting of the committee to be held here August 14. Members of the old committee will clear up the business before it, and the members of the new committee elected at the primary election will organize. Chairman Melton was re-elected a member of the committee in Grady county and it is possible he will be re-elected chairman. It is likely the committee will attend to other matters relative to the campaign that must now be waged.

**SEEKING AUTOMOBILE LICENSES**  
 Applications from Car Owners Over State Coming in Fast.

**Special to The World.**  
 OKLAHOMA CITY, Aug. 4.—Applications for automobile licenses for 1916 are coming in at the rate of more than 200 a day, according to George Noble, state highway commissioner. More than \$400,000 has been collected since the first of the year, and at the rate collections are being made it is possible that half a million or more dollars will be collected during the calendar year. Ninety per cent of this money goes back to the counties from whence the tax is collected which is used to supplement the amount from each county for road purposes. The number of new cars that is being purchased at this time of the year is something wonderful, says Mr. Noble.

**Miners on Strike.**  
 QUEBEC, Aug. 3.—Twelve hundred miners employed in the Theford asbestos mines near Sherbrooke, Que., struck today for higher wages. They paraded the streets, but there was no disorder. The mine operators have 150 guards on duty.
